Call to the People and Governments of the World:

Stop AIDS Genocide By the Drug Cartel!

The HIV/AIDS epidemic has become one of the greatest threats to mankind ever. The African continent is hardest hit. According to the UN, 22 million Africans have already died from AIDS and every new day takes the lives of 6000 more African men, women and children.

This human tragedy has become a multi-billion dollar market for the pharmaceutical investment business - the drug cartel - in

which the return on investment is based on the continuation of the AIDS epidemic. To maintain their global market with patented AIDS drugs, the pharmaceutical drug cartel promotes so-called antiretroviral (ARV drugs) to combat immune deficiencies. These ARV drugs severely damage all cells in the body - including white blood cells - thereby not improving but rather worsening immune deficiencies and expanding the AIDS epidemic.

In February 2004, the Vatican accused the 'pharmaceutical cartel' of committing genocide in Africa in the name of its multi-billion dollar profits with patented AIDS drugs.

The time has come to stop these crimes against humanity and to present to the people of Africa and the world the effective, safe and affordable solution to the AIDS epidemic. Progress in natural health now offers this opportunity.

Matthias Rath, M.D.

Dr. Rath is the world-renowned scientist and physician who led the scientific breakthrough for the natural control of cardiovascular disease, cancer, immune deficiencies and other common health problems.

He identified the common cellular mechanisms behind the spread of cancer and viral diseases in the human body and natural ways to block them. His Research Institute of Cellular Medicine is a world leader in science-based, natural health approaches. His discoveries have been scientifically and clinically proven and published in leading scientific journals (www.dr-rath-research.org).

Dr. Rath was the first to identify the pharmaceutical 'business with disease' as the biggest obstacle for the control and eradication of today's diseases. Over the past years, his worldwide public health education campaigns, including in *The New York Times* and other leading newspapers, have unmasked the pharmaceutical industry as an investment business dependent on the continuation and promotion of diseases. Dr. Rath and his Research Institute have also developed economic alternatives to the pharmaceutical 'business with disease'.

In contrast to the pharmaceutical industry, we offer our research findings and scientific expertise to the governments of the world free of charge for the benefit of their people.

We encourage governments and research institutions around the world to contact us immediately via our web site in order to save millions of lives."

Cape Town, May 2005

Matthias Rath

Micronutrients Alone Can Promote the Defense Against AIDS

In Khayelitsha, a township of Cape Town, South Africa, we conducted a controlled nutritional program in HIV-positive patients with advanced AIDS who had never taken any ARV drugs. The goal of this program was to show that a combination of micronutrients can improve the built-up of the immune system even in advanced stages of Immune Deficiency Syndrome.

This nutrient combination consisted of specific vitamins, amino acids, minerals and polyphenol extracts from green tea. The list of micronutrients in this program and other details are available on the web site of our Foundation.

Blood tests and clinical evaluations were performed at the start and after 4 weeks on the nutrient program. Already after the first month the clinical and blood test results were profound. Patients with the most severe

stages of AIDS had the highest improvements of immune function. We decided to publish the key findings without delay for the benefit of all mankind.

In July 2004 the *New York Times* had already reported about a study of pregnant women in Tanzania with AIDS, originally published in the July 1 issue of the *New England Journal of Medicine*. This 6-year study documented that multivitamins can delay the onset of AIDS by 50%.

No previously tested vitamins or ARV drugs have been able to show the reversal of clinical symptoms of Immune Deficiency Syndrome as documented here. Moreover, all known immune system markers - not only CD4 counts - significantly improved within the short period of only 4 weeks!

Improvement of Immune Function Markers In 18 AIDS Patients After 4 Weeks of Micronutrient Program

The scientific responsibility of these results is shared by Alexandra Niedzwiecki, Ph.D. (Dr. Rath Research Institute, USA), David Rasnick, Ph.D. (Dr. Rath Health Foundation, South Africa), Sam Mhlongo, M.D. (Head of Family Medicine, Medical University of Southern Africa, MEDUNSA, South Africa) and Matthias Rath, M.D.

Immune Deficiency-Related Skin Ulcer Reversed

Zola (age 20) is just one example for the clinical improvements seen in this study. Last year, when she experienced symptoms of weight loss, night sweating and coughing she consulted a clinic and was diagnosed with tuberculosis (TB) and tested HIV positive.

After finishing her TB treatment, she was advised to start antiretroviral (ARV) treatment but she objected because of the side-effects of ARVs. By that time she had developed symptoms of full-blown Immune Deficiency Syndrome, including a deep neck ulcer that would not heal and eventually develop a severe infection (see picture A below). She also had pain in her legs and other parts of her body.

Soon after she started the nutrient program, the pains in her body stopped and she gained weight. The infected wound began to heal and after one month had almost completely disappeared (see picture B below).

Skin ulcers typical for advanced Immune Deficiency Syndrome

A: Before starting the nutritional program, a severely infected ulcer was visible on Zola's neck

B: After 1 month of taking micronutrients the ulcer on Zola's neck had almost completely healed

South Africa Leads Global Health Liberation from the Drug Cartel

Through their involvement in the AIDS epidemic the drug cartel has turned South Africa and the African continent into a battleground to force its multi-billion dollar drug business upon the entire developing world. The people and the government of South Africa have taken on this fight by basing its health care system on effective and affordable natural health solutions. The scientific foundation for this health approach is documented in every textbook of biology and biochemistry: vitamins and other micronutrients are essential cofactors for optimum metabolism of millions of cells in our body - including the cells responsible for effective immune defense. By doing so the South African government is tearing down the artificial wall built in the

interest of the drug cartel between biological science and pharma-oriented medicine. Withholding life-saving information about effective natural health and keeping the people of the world 'health illiterate' has been the basis for the multi-billion dollar global investment business with patented synthetic drugs. In this war between natural health and the 'business with disease' of the drug cartel there can be only one winner. Strengthening the immune system through natural means, which is now in sight, will inevitably terminate the unscrupulous multi-billion dollar drug business with this epidemic. **In this battle for its survival the drug cartel and its political stakeholders are currently mounting their 'last offensive' on Africa.**

GEORGE BUSH

The drug industry was the single largest funder of George Bush's election campaigns. As a payback and in order to promote ARV drugs across Africa, George Bush channeled 15 billion dollars of tax payer money to Africa under the name of 'Presidential Emergency Plan for AIDS Relief'. These huge funds can not be used for any natural therapeutic approaches to fight the AIDS epidemic. These billions are nothing more than a subsidy for drug companies, promoting their toxic, unaffordable drugs to malnourished people in Africa.

THE WORLD BANK

Paul Wolfowitz, one of the fiercest executors of the drug cartel, has just been appointed head of the World Bank. He immediately announced the pouring of billions more into Africa to fight AIDS with pharmaceutical drugs. The obvious goal: cementing the monopoly of the drug cartel and keeping the economies of African countries hostage.

UN (WHO / UNAIDS)

The World Health Organisation and other UN organizations founded half a century ago to serve the people of the world have been strategically infiltrated by the drug cartel. These UN organizations are used to promote toxic, expensive AIDS drugs that cannot cure AIDS while at the same time seeking a global ban on natural health.

US INSTITUTE OF MEDICINE

The goal is to keep the entire African continent hostage by the drug cartel and economically dependent on the investment groups behind it. In order to execute this plan, the US government, through the US Institute of Medicine, is currently organizing to send thousands of doctors, pharmacists and other promoters of ARV drugs to Africa. The 200-page master plan for this unprecedented 'Drug Crusade' to 'enslave' millions of people of Africa on behalf of the drug cartel is published on the Internet at <http://www.nap.edu/books/0309096162.html>.

TONY BLAIR / GORDON BROWN

The unscrupulous global 'business with disease' of the drug cartel is orchestrated from two countries, the UK and the US, which force patented drugs on the people of 200 nations. Revenues of the UK-based drug company GlaxoSmithKline - producer of the AIDS drug AZT - is more than the combined economies of the 50 poorest countries of Africa. Tony Blair's multi-billion 'Marshall Plan for Africa,' has been designed to coerce African decision makers to continue their dependency on the drug cartel and prevent the liberation of their people and economies by implementing health care based on natural therapies.

'TROJAN HORSES' OF THE DRUG CARTEL INSIDE SOUTH AFRICA

The drug cartel is also channeling millions to its 'Trojan horses' inside South Africa to exert political pressure on the government to purchase ARV drugs from drug multinationals, i.e.:

- The Democratic Alliance, a political opposition party, campaigning for 'Free ARV drugs for All!' is not even denying its funding by the drug cartel.
- The Treatment Action Campaign (TAC), the stormtroopers of the drug cartel, is funded to organize street riots calling for a 'revolution' against the South African government.

Strengthening the immune system with vitamins and other micronutrients inevitably terminates the multi-billion dollar business with patented AIDS drugs. The natural control of the Immune Deficiency Syndrome epidemic destroys not only the marketplace for the drug industry but its entire credibility. The drug cartel is being unmasked as an organization preventing natural, non-patentable health solutions in order to protect their global markets of dangerous, patented drugs and the sacrificing of lives of people in genocidal proportions. The people and the government of South Africa are leading the global struggle for the liberation of human health from the drug cartel.

In this battle, no one can stay impartial. A victory for the people of Africa is a victory for the people of the world, liberating mankind from the yoke of the pharmaceutical cartel forever. Here is how you can help:

- Further educate yourself on our web site and share this information with everyone you know!
- Urge your government to stop abusing your tax money to promote the drug cartel's business across Africa!
- Demand the redistribution of funds to fight hunger and promote natural health solutions worldwide!
- Send a message of support for the South African government to continue its leadership for health freedom!

Support South Africa in Its Struggle to Save Millions of Lives!

The Dr. Rath Health Foundation is a non-profit organization dedicated to the promotion of natural health through research and education worldwide. This public health information has been made possible by contributions from thousands of people worldwide who have been helped by natural health.

We are looking for people like You to join us in our mission to liberate human health from the drug cartel and achieve 'Health for All by the Year 2020'.

More Information: www.dr-rath-foundation.org.za

The Background

In the light of a Vatican representative accusing the pharmaceutical industry of "genocidal action" over its policy towards AIDS drugs for Africa we had begun a community health program in early 2005, involving the free distribution of vitamin supplements within township communities in South Africa.

The results of this program were outstanding and their publication in the New York Times and other leading newspapers stunned the world. By documenting the incontrovertible scientific proof that micronutrients alone are an effective defense against the AIDS epidemic we exposed yet another of the pharma-cartel's major health scams.

The human tragedy of AIDS is a multi-billion dollar market for the pharmaceutical industry in which the return on investment is based on the continuation of the epidemic. To maintain their global market with patented AIDS drugs, the pharma-cartel promotes so-called anti-retroviral (ARV) drugs to combat immune deficiencies. These ARV drugs severely damage all cells in the body - including white blood cells - thereby worsening rather than improving immune deficiencies and expanding rather than controlling the AIDS epidemic.

The Reaction

The publication of our results provoked a fire storm of reaction from the pharma-cartel and its interests around the world. Newspapers from Europe to Africa ran numerous articles criticizing our program and attempting to dissuade people that simple vitamins could ever take the place of complex ARV drugs in fighting AIDS - flying in the face of the evidence we had published for all to see.

On the very same day that our results were published in the New York Times, researchers from the Harvard School of Public Health, whose results we had referenced, attempted to deny their own findings! In a ludicrous press release these so-called scientists confirmed that their research in Tanzania showed that multivitamin supplementation was effective against AIDS whilst in the same breath saying that we should not encourage the use of such supplements in preference to anti-retroviral drugs. We leave readers to draw their own conclusions as to why they would do this.

- 2006: Patriot Act Renewal
- 2006: Bird Flu
- 2006: 'Outcry' Stop Nuclear War!

The Outcome

Throughout 2005, vitriolic and unfounded personal attacks on Dr. Rath and on the work of our Foundation in Africa sprang forth from every organ of the media that the pharmaceutical business with disease could enrol in support of its vain attempt to maintain its market for highly profitable ARV drugs and keep the lid on an emerging threat to its business.

Our "You Can!" newspaper for South African communities exposed these attacks for what they were and updated and expanded the results of our program. Curiously, the lives of those people in the communities where our program was running continued to improve and the yoke of AIDS as a death sentence was slowly being lifted - despite the best efforts of the business with disease to maintain it.

NO AMNESTY FOR MAKERS OF DEADLY DRUGS!**Protect Your Health!
Act Now!**

Matthias Rath, M.D.

Largely unbeknownst to the American people, there is a war going on that has claimed victims in every family. This war is escalating and threatens every human life.

It is a war being waged in the interests of the multibillion-dollar pharmaceutical industry, which is not a health industry, but rather an investment business built upon the continuation and expansion of global diseases.

Your health - and the health of every person in America - is threatened in several ways:

- 1. The “business with disease” as the basis of the pharmaceutical industry.** The pharmaceutical industry is a multibillion-dollar investment business that has orchestrated the largest fraud in human history; it promises health, but in fact thrives on the continuation of diseases. This fraud scheme is easily unmasked: Most pharmaceutical drugs are designed to merely cover disease symptoms, but are not intended to cure or eradicate diseases. As a direct result of this multibillion-dollar fraud business, no cure has been found for cardiovascular disease, cancer, diabetes or any other chronic disease. *On the contrary, these diseases continue in epidemic proportions, killing about 5,000 - five thousand - Americans EACH DAY. This compares to the annihilation of a city the size of San Francisco - EACH YEAR!*
 - 2. The epidemic of dangerous side effects caused by pharmaceutical drugs.** The dangerous side effects of Vioxx, Celebrex, Lipitor and Prozac are not the exception - they are the rule. Due to their synthetic nature, most pharmaceutical drugs are toxic to our bodies, causing organ damage and other serious side effects. *According to the American Medical Association, one million Americans suffer disabilities from taking pharmaceutical drugs and more than 100,000 of them die as a result of this - EACH YEAR!*
 - 3. Legislation that protects the expansion of the deadly “business with disease.”** For decades, drug companies have used their giant profits to manipulate the public and influence legislation, including that from the U.S. Congress and the White House. Now that the deadly consequences of the pharmaceutical fraud business have been unmasked, the survival of this industry depends on protectionist laws. The current push of the Bush administration for so-called “Medical Liability Reform” is not about protecting gynecologists and medical doctors from liability lawsuits. The centerpiece of the proposed medical liability legislation is to prohibit punitive damage awards in liability lawsuits brought by injured patients against drug companies!
- This medical liability legislation is being used as a cover to grant amnesty to drug manufacturers, protecting them from having to compensate millions of patients for the harm their drugs have caused. It is payback for the pharmaceutical industry, which was the largest corporate sponsor of the Bush election campaign. The people of America and their political representatives have to realize that the proposed medical liability legislation is a “Trojan Horse”; passing it means granting immunity to the drug makers, allowing them the unrestricted expansion of their deadly “business with disease” at the expense of patients. *As the direct consequence of this law, tens of millions of Americans will suffer disability and die from preventable diseases within the next decades.*
- 4. Withholding lifesaving information about the health benefits of vitamins and natural therapies.** A precondition for this “business with disease” based on patentable synthetic drugs is the suppression of effective and safe - but non-patentable and, therefore, less profitable - natural therapies. For decades, the pharmaceutical industry has strategically expanded its influence on medical education with devastating results; it has deliberately blocked any information about the essential role of vitamins and other micronutrients in maintaining health - contained in every textbook of biology, biochemistry and natural science - from entering medical school teaching and medical practice. Through their strategic influence, the pharmaceutical industry has established a global monopoly on medicine. As a direct result, generations of medical doctors have not received adequate training in nutritional and other natural therapies. Doctors and patients alike have become victims of the pharmaceutical industry’s efforts to monopolize human health. *As a result, tens of millions of Americans have died unnecessarily over the past decades because this lifesaving health information has not been available to them.*
 - 5. Suppressing effective natural health therapies by law.** Effective, safe and non-patentable natural therapies threaten the very basis of the pharmaceutical investment business. They target and correct the underlying cellular deficiencies of today’s most common diseases, thereby preventing and eventually eradicating them. The elimination of any disease inevitably destroys a multibillion-dollar drug market for the pharmaceutical industry. Thus, the pharmaceutical industry has launched a global campaign to protect its patent-based “business with disease” by outlawing natural, non-patentable therapies at the national and international level. This is the background for the Bush administration’s attack on the Dietary Supplement Health and Education Act (DSHEA), the key legislation protecting the rights of the American people for free access to natural therapies and to freedom of health choice. *If this fundamental human right to natural health is taken away, the health of billions of people will be compromised and tens of millions of them will pay the ultimate price for generations to come.*

Let your voice be heard by signing the following Petition:

We, the people of the United States of America, recognize our historic responsibility to act now and protect our most fundamental human right - the right to health and life.

With my signature, I am urging my political representatives and the U.S. government to:

- 1. Not grant any amnesty to drug companies by limiting the damages to be paid to patients whose health has been harmed and to the relatives of those killed by pharmaceutical drugs. Do not allow “Medical Liability Reform” or any other legislation to become a “Trojan Horse” covering these special interests.**
- 2. Protect my free access to natural health information and therapies as guaranteed by the Dietary Supplement Health and Education Act.**
- 3. Promote research and implement proven and safe natural therapies and traditional medicines as the basis of an effective and affordable healthcare system in America.**

You are bound by the Constitution to protect our health and our lives!

This Petition has been launched by the Dr. Rath Health Foundation, a non-profit organization dedicated to education about science-based natural health approaches worldwide. We urge individuals and organizations, patients, self-help groups, natural health practitioners, churches, communities and others to support this Petition. Please return the Petition to the address below. We invite other organizations to become co-sponsors of this Petition with the aim of forming a broad coalition to achieve the above goals.

For more information and additional Petitions, please contact us via our website: www.dr-rath-health-foundation.org.

Dr. Rath Health Foundation • P.O. Box 4103, Santa Clara, CA 95056 • Fax: 408-567-5086

The Background

On 23rd January 2005, the New York Times published our wake-up call to the American people: Protect Your Health! Act Now!

Since the middle of 2004 the pharma-Cartel, the group of financial interests behind the pharmaceutical drug makers, had seen the value of their shareholdings fall sharply, battered by impending product liability lawsuits over the deadly side effects of drugs and mounting public outrage at the fraudulent practices of the pharmaceutical 'business with disease.'

Through continual exposure of their deadly practice of putting profits before health and through the publication of information about the network of influence the Cartel exercises in order to keep this scam running, the Foundation helped create the climate for this public outcry. That which had been hidden from public view for so long, was exposed to the light of day - and people were angry about what they saw.

The Reaction

With the support of its friends in the Bush Administration, the pharma-Cartel (the Bush re-election campaign's third largest financial supporter) responded to our

call to action by desperately trying to introduce a Medical Liability reform bill that would limit product liability claims, capping the cost to the drug makers at derisorily low levels and leaving no recourse to those injured or killed by their deadly drugs. Attempts to get this bill passed had started in 2004, but following the inauguration

of President Bush for a new four year term in January 2005, the proposed bill is once again near the top of the agenda.

Not content with shielding itself from accountability for the side-effects of its products the Cartel, simultaneously, with the assistance of its friends in the media, began a campaign to force changes to the Dietary Supplement Health and Education Act of 1994. These changes are designed to ban information about and the availability of natural health remedies - non-patentable remedies that offer scientifically proven, safe and effective alternatives to pharmaceutical drugs. The intent is to take out the competition by restricting the availability of natural remedies, leaving patentable but toxic drugs, with deadly side-effects for which there is no liability, as the only health choice.

The Outcome

By the beginning of 2005 a defining moment in the long-running battle for vitamin freedom had arrived. In line with our declared goals of responsibility for health, peace and social justice, the Foundation's call to action provided a rallying point for the public's outrage against the pharmaceutical drug makers that we had helped to create with our open letter campaign.

The pharma-Cartel would, of course, not simply roll over in the face of a threat to its continued survival and so the tectonic plates shifted yet again. The battle for health freedom would continue, but the battleground would once again change.
