

# Why the British People Should Leave the 'Brussels EU' With Pride

The 'Brussels EU' is threatening the government and people of Great Britain by trying to punish them with a Brexit bill of up to a hundred billion euros. In doing so, it knows that the only way to enforce any such payment is to subjugate the UK under the self-appointed and Brussels-dominated 'European Court of Justice.' The Brussels bureaucrats are ruthlessly determined to use this 'Court' as an instrument of threat and intimidation.

Thus, it is important to inform a broader public about the dubious history of this court and the criminal past of its founders. Its leading architect was a German lawyer who had loyally served German industry and the Nazi State during their joint reign of terror between 1933-1945: Carl Friedrich Ophuels.

1941. After the Nazis had seized power, Ophuels, a German lawyer, became the

leading expert at the important Patent Court in Frankfurt (Germany), the city where the headquarters of the infamous IG Farben Cartel (composed of BAYER, BASF, HOECHST and other chemical firms) was located. In this role, Ophuels became familiar with all patent disputes relating to the seizing by IG Farben of the chemical industries from the conquered countries of Europe.

On December 17, the Nazi Party head office in Frankfurt, in an official letter to the Rector of Frankfurt University, attested that Ophuels was a "politically reliable" Nazi.

1946. Ophuels' post-war Allied Denazification questionnaire definitively proves that

he was a member of the Nazi Party, the NSDAP. He entered the Nazi party in its very first year of power, 1933, and was given the membership number 2,399,061.

1947. Because of his Nazi past, the Allied Security Office classified Ophuels as an individual who was unemployable "for any position above ordinary labour".

1949. Walter Hallstein, the German lawyer who became the chief architect and first president of the 'Brussels EU', had a com-

pletely different view of Ophuels compared to that of the Allied Security Office. This was no surprise, since Hallstein had been a member of the official Nazi State delegation to Mussolini's Rome in 1938 that had planned the structure of post-war Europe ready for the presumed victory of the axis coalition. Thus, Hallstein promoted his 'brother in ideology', Ophuels, to 'Ambassador' in Brussels and made him his right-hand man for the construction of the 'Brussels EU'.

1957. A mere 16 years after being described by the Nazi Party head office in Frankfurt as a "politically reliable" Nazi, Ophuels signs the 'Statutes for the European Court of Justice' as its principal architect and founding father.

Today, we have to realize that the 'European Court of Justice' – the highest legal organ of today's 'Brussels EU' – was crafted and signed into law by stakeholders of the Nazi/IG Farben Cartel Coalition, which included registered Nazi

Party members. The 'Brussels EU' succeeded in hiding this appalling charade for over half a century.

Now that the truth is finally out, the entire legal and moral basis for the artificial construct of the 'European Court of Justice' is destroyed.

The British people deserve enormous credit for unmasking the dark nature of the 'Brussels EU' and preparing the way for other nations to follow their lead.

For the British government, it is now time to make public the post-WWII 'denazification' records concerning the criminal past of Ophuels, Hallstein, and other key architects of the 'Brussels EU'.
