

Call to the People and Governments of the World:

Stop AIDS Genocide By the Drug Cartel!

The HIV/AIDS epidemic has become one of the greatest threats to mankind ever. The African continent is hardest hit. According to the UN, 22 million Africans have already died from AIDS and every new day takes the lives of 6000 more African men, women and children.

This human tragedy has become a multi-billion dollar market for the pharmaceutical investment business - the drug cartel - in which the

return of investment is based on the continuation of the AIDS epidemic. To maintain their global market with patented AIDS drugs, the pharmaceutical drug cartel promotes so-called antiretroviral (ARV drugs) to combat immune deficiencies. These ARV drugs severely damage all cells in the body - including white blood cells - thereby not improving but rather worsening immune deficiencies and expanding the AIDS epidemic.

In February 2004, the Vatican accused the "pharmaceutical cartel" of committing genocide in Africa in the name of its multi-billion dollar profits with patented AIDS drugs.

The time has come to stop these crimes against humanity and to present to the people of Africa and the world the effective, safe and affordable solution to the AIDS epidemic. Progress in natural health now offers this opportunity.

Matthias Rath, M.D.

Dr. Rath is the world-renowned scientist and physician who led the scientific breakthrough for the natural control of cardiovascular disease, cancer, immune deficiencies and other common health problems.

He identified the common cellular mechanisms behind the spread of cancer and viral diseases in the human body and natural ways to block them. His Research Institute of Cellular Medicine in California is a world leader in science-based, natural health approaches. His discoveries have been scientifically and clinically proven and published in leading scientific journals (www.dr-rath-research.org).

Dr. Rath was the first to identify the pharmaceutical "business with disease" as the biggest obstacle for the control and eradication of today's diseases. Over the past years, his worldwide public health education campaigns, including in *The New York Times* and other leading newspapers, have unmasked the pharmaceutical industry as an investment business dependent on the continuation and promotion of diseases. Dr. Rath and his Research Institute have also developed economical alternatives to the pharmaceutical "business with disease."

"In contrast to the pharmaceutical industry, we offer our research findings and scientific expertise to the governments of the world free of charge for the benefit of their people.

We encourage governments and research institutions around the world to contact us immediately via our web site in order to save millions of lives."

Cape Town, May 2005

Manin Ram

Micronutrients Alone Can Promote the Defense Against AIDS

In Khayelitsha, a township of Cape Town, South Africa, we conducted a clinical pilot study in HIV-positive patients with advanced AIDS who had never taken any ARV drugs. The goal of the study was to show that a combination of micronutrients can reverse the course of AIDS, even in its advanced stage.

This nutrient combination consisted of specific vitamins, amino acids, minerals and polyphenol extracts from green tea. The list of micronutrients in this program and details of the study are available on the web site of our non-profit Foundation.

Blood tests and clinical evaluations were performed at the start and after 4 weeks on the nutrient program. Already after the first month of this study, the clinical and blood test results were profound. **Patients with the**

most severe stages of AIDS had the highest improvements of immune function. We decided to publish the key findings without delay for the benefit of all mankind.

In July 2004, *The New York Times* had already reported about a study of pregnant women in Tanzania with AIDS, originally published in the July 1 issue of the *New England Journal of Medicine*. This 6-year study documented that multivitamins can slow the progress of AIDS by 50%.

No previously tested vitamins or ARV drugs have been able to show the reversal of clinical symptoms of AIDS as documented here. Moreover, all known immune system markers - not only CD4 counts - significantly improved within the short period of only four weeks!

Immune Deficiency-Related Skin Ulcer Reversed

Zola (age 20) is just one example of the clinical improvements seen in this study. Last year, when she experienced symptoms of weight loss, night sweating and coughing she consulted a clinic and was diagnosed with tuberculosis (TB) and tested HIV positive.

She was advised that after finishing her TB treatment she should start taking antiretroviral (ARV) treatment but she objected because of the side-effects of ARV treatment. By that time she had developed symptoms of full-blown AIDS, including a deep neck ulcer that would not heal and eventually develop a severe infection (see picture A below). She also had pain in her legs and other parts of her body.

Soon after she started the nutrient program, the pains in her body stopped and she gained weight. The infected wound began to heal and after one month had almost completely disappeared (see picture B below).

Skin ulcers typical for advanced Immune Deficiency Syndrome

A: Before starting the nutritional program, a severely infected ulcer was visible on Zola's neck

B: After 1 month of taking micronutrients the ulcer on Zola's neck had almost completely healed

Improvement of Immune Function Markers In 18 AIDS Patients After 4 Weeks of Micronutrient Program

The scientific responsibility of these results is shared by Alexandra Niedzwiecki, Ph.D. (Dr. Rath Research Institute, USA), David Rasnick, Ph.D. (Dr. Rath Health Foundation, South Africa), Sam Mhlongo, M.D. (Head of Family Medicine, Medical University of Southern Africa, MEDUNSA, South Africa) and Matthias Rath, M.D.

South Africa Leads Global Health Liberation from the Drug Cartel

Through their involvement in the AIDS epidemic the drug cartel has turned South Africa and the African continent into a battleground to force its multi-billion dollar drug business upon the entire developing world. The people and the government of South Africa have taken on this fight by basing its health care system on effective and affordable natural health solutions. The scientific foundation for this health approach is documented in every textbook of biology and biochemistry: vitamins and other micronutrients are essential cofactors for optimum metabolism of millions of cells in our body - including the cells responsible for effective immune defense. By doing so the South African government is tearing down the artificial wall built in the

interest of the drug cartel between biological science and pharma-oriented medicine. Withholding life-saving information about effective natural health and keeping the people of the world "health illiterate" has been the basis for the multi-billion dollar global investment business with patented synthetic drugs. In this war between natural health and the "business with disease" of the drug cartel there can be only one winner. The control of the AIDS epidemic through natural means, which is now in sight, will inevitably terminate the unscrupulous multi-billion dollar drug business with the AIDS epidemic. **In this battle for its survival the drug cartel and its political stakeholders are currently mounting their "last offensive" on Africa.**

GEORGE BUSH

The drug industry was the single largest funder of George Bush's election campaigns. As a payback and in order to promote ARV drugs across Africa, George Bush channeled 15 billion dollars of taxpayer money to Africa under the name of "Presidential Emergency Plan for AIDS Relief."

These huge funds can *not* be used for any natural therapeutic approaches to fight the AIDS epidemic. These billions are nothing more than a subsidy for drug companies, promoting their toxic, unaffordable drugs to malnourished people in Africa.

THE WORLD BANK

Paul Wolfowitz, one of the fiercest executors of the drug cartel, has just been appointed head of the World Bank. He immediately announced the pouring of billions more into Africa to fight AIDS with pharmaceutical drugs. The obvious goal: cementing the monopoly of the drug cartel and keeping the economies of African countries hostage.

UN (WHO / UNAIDS)

The World Health Organisation and other UN organizations founded half a century ago to serve the people of the world have been strategically infiltrated by the drug cartel. These UN organizations are used to promote toxic, expensive AIDS drugs that cannot cure AIDS while at the same time are seeking a global ban on natural health.

US INSTITUTE OF MEDICINE

The goal is to keep the entire African continent hostage by the drug cartel and economically dependent on the investment groups behind it. In order to execute this plan, the US government, through the US Institute of Medicine, is currently preparing to send thousands of doctors, pharmacists and other promoters of ARV drugs to Africa. The 200-page master plan for this unprecedented "Drug Crusade" to "enslave" millions of people in Africa on behalf of the drug cartel is published on the Internet at www.nap.edu/books/0309096162/html.

TONY BLAIR/GORDON BROWN

The unscrupulous global "business with disease" of the drug cartel is orchestrated from two countries, the UK and the US, which force patented drugs on the people of 200 nations. Revenues of the UK-based drug company GlaxoSmithKline - producer of the AIDS drug AZT - is more than the combined economies of the 50 poorest countries of Africa. Tony Blair's multi-billion "Marshall Plan for Africa," has been designed to coerce African decision makers to continue their dependency on the drug cartel and prevent the liberation of their people and economies by implementing health care based on natural therapies.

"TROJAN HORSES" OF THE DRUG CARTEL IN SOUTH AFRICA

The drug cartel is also channeling millions to its 'Trojan horses' inside South Africa to exert political pressure on the government to purchase ARV drugs from drug multinationals, i.e.:

- The **Democratic Alliance**, a political opposition party, campaigning for "Free ARV drugs for All!" is not even denying its funding by the drug cartel.
- Pressure groups and other 'storm troopers' of the drug cartel are funded to organize street riots calling for a "revolution" against the South African government.

Strengthening the immune system with vitamins and other micronutrients inevitably terminates the multi-billion dollar business with patented AIDS drugs. The natural control of the Immune Deficiency Syndrome epidemic destroys not only the marketplace for the drug industry but its entire credibility. The drug cartel is being unmasked as an organization preventing natural, non-patentable health solutions in order to protect their global markets of dangerous, patented drugs and the sacrificing of lives of people in genocidal proportions. The people and the government of South Africa are leading the global struggle for the liberation of human health from the drug cartel.

In this battle, no one can stay impartial. A victory for the people of Africa is a victory for the people of the world, liberating mankind from the yoke of the pharmaceutical cartel forever. Here is how you can help:

- **Further educate yourself on our web site and share this information with everyone you know!**
- **Urge your government to stop abusing your tax money to promote the drug cartel's business across Africa!**
- **Demand the redistribution of funds to fight hunger and promote natural health solutions worldwide!**
- **Send a message of support for the South African government to continue its leadership for health freedom!**

Support South Africa in Its Struggle to Save Millions of Lives!

The Dr. Rath Health Foundation is a non-profit organization dedicated to the promotion of natural health through research and education worldwide. This public health information has been made possible by contributions from thousands of people worldwide who have been helped by natural health. We are looking for people like You to join us in our mission to liberate human health from the drug cartel and achieve "Health for All by the Year 2020."
