

One Trillion Dollar Bailout Can No Longer Conceal the Nazi Roots of the 'Brussels EU'

In the April 26, 2010 edition of this newspaper – and in the supporting online documentation – Dr. Rath exposed the following sobering facts about the so-called 'European Union', the 'Brussels EU':

- The 'Brussels EU' is a political construct that functions as the global 'politburo' of the Oil and Drug Cartel.
- Its executive, the 'EU Commission', is appointed on behalf of corporate interests – it is not democratically elected.
- This 'Commissariat' runs Europe with an 'army' of more than 50,000 unelected *long-term* bureaucrats. In contrast, the 736 members of the 'EU Parliament' serve as an *exchangeable* fig-leaf for this regime and can not initiate legislation.
- The 'Brussels EU' parades as the 'government of Europe' – but more than 99% of the people in Europe were denied the right to vote on this political construct.
- **In 1945 the previous plans of the Cartel and their political stakeholders, the Nazis, to conquer and control Europe and the world were defeated. The launch of the 'Brussels EU' became the Cartel's next attempt at this goal – under the deceptive banner of promoting security and prosperity.**
- **Even the political instruments of the Nazi-era served as blueprints: The central vehicle for a post-WWII rule over Europe and the world under the Nazi/Cartel coalition was a 'Central Cartel Office'. This Cartel Office became today's 'EU Commission'.**

German lawyer Walter Hallstein was the chief architect of the 'Brussels EU'. He had designed this construct already two decades earlier for the Cartel's previous political stakeholders – the Nazis: On January 23, 1939 – only eight months before they launched WWII – Hallstein held his infamous 'Conquest Speech'. In it he outlined a detailed plan for Europe – and the world – under control of the Oil and Drug Cartel and the Nazis.

After having lied to the Allied Denazification Authorities about his Nazi allegiance – Hallstein was appointed 18 years later by Cartel interests as founding 'president' of the 'Brussels EU'. With the help of then over 8,000 unelected bureaucrats he finished what the Oil and Drug Cartel and their Nazi stakeholders could not accomplish during WWII – to establish a 'Central Cartel Office' to control Europe and the world.

Hallstein's 1939 'Conquest Speech' is a blueprint for the world's future under the 'Brussels EU':

THE REACTION OF WORLD OPINION

Within days after the first exposure of these historical facts in the 'New York Times' on April 23, 2010, the Euro fell to an all time low on global markets.

What was interpreted by some as an 'attack' by greedy investors on the 'Euro' was in fact much more – the resounding 'No' of world opinion to the Nazi-rooted 'Brussels EU'. But the financial markets were merely the peak of the iceberg for the loss of political credibility of this construct.

FROM NAZIS TO THE 'FRENCH CONNECTION'

Many opinion leaders in the political and financial world immediately understood that the construct of the 'Brussels EU' had just become indefensible and publicly demanded its abandonment. The stakeholders of the Cartel, in contrast, called for a 'general mobilization'. They pushed the story of 'global attacks' on the Euro-Zone, namely by financial speculators, and bluffed the world with a trillion dollar 'bailout' plan – to prevent the implosion of the 'Brussels EU' construct.

Leading this desperate effort was the new global stakeholder of the Cartel, French president Sarkozy. In 2005 he had 'gambled' billions of tax dollars to merge French dwarf drug-maker Sanofi with drug giant Hoechst, a former member of the Nazi-era 'IG Farben Cartel'. Sarkozy's trillion dollar bailout stunt was bankrolled by his 'French Connection', Trichet (European Central Bank head) and Strauss-Kahn (IMF head).

But no money in the world – not even trillions of dollars – can restore the lost credibility of the Nazi-rooted 'Brussels EU'.

Carl Friedrich Ophuels had been an official member of the Nazi Party through the entire 12 years of their terror regime. His official Nazi membership number was 2,399,061.

Ophuels was an expert in patent law in the Nazi Court of Frankfurt, Germany. This city was the headquarters of the infamous IG Farben Cartel, the world's largest owner of patented chemicals and drugs. IG Farben executives were sentenced in Nuremberg for robbing the Nazi-occupied countries of their entire chemical industries – including their patents.

Because of Ophuels' Nazi past, the 1946 US Denazification Authority found Ophuels unsuited 'for any position above ordinary labor'. The Cartel, however, decided to use his 'know how' for its next attempt at world conquest. Ophuels became the chief architect and co-founder of the so-called 'European Court of Justice' – the house court of the 'Brussels EU'.

GREECE IS NOT THE EXCEPTION – BUT THE RULE

The crisis in Greece – and other European countries – is not the result of corruption or lack of productivity. It is the inevitable result of systematic drainage of public and private funds from these countries, totaling trillions of dollars, to finance the import of petrochemicals, patented drugs and other Cartel products.

The economic dependency and ultimately bankruptcy of non-Cartel countries serves the ultimate goal of complete global control by the Cartel. Thus, the current crisis must have been foreseen by the Cartel, although at a later stage when the 'Brussels EU'-controlled riot police and armed forces would have been set up and sent to Athens and other capitals to crack down on any resistance against the rule of the Cartel and the 'Brussels EU'.

ROADMAP TO RECOVERY AND PROSPERITY

The 'Brussels EU' serves as the 'Central Cartel Office' providing the political, legal – and if needed military – framework to secure the continuation of the multi-trillion dollar 'tribute payments' to the Cartel for products based on largely outdated technologies.

Not coincidentally, this happens at a time when mankind is ready to introduce hydrogen cars and other mass application of renewable energies at a fraction of the costs of oil, and when science-based natural health approaches threaten multi-trillion dollar markets of patented chemical drugs.

The promotion of these new technologies is a precondition for recovery and sustainable prosperity.

Dr. Matthias Rath

Dr. Rath has become a voice of conscience exposing the plans of the Oil and Drug Cartel behind recent global military conflicts and crises. Attacked by Cartel media the world over, Dr. Rath and his Foundation recieved prestigious awards for civil courage: The 'Relay of Life' Award by survivors of Auschwitz and other Nazi concentration camps was conferred with the mandate:

'NEVER AGAIN!'

After the publication of this information, the 'Brussels EU' can no longer survive. No member of the 'EU Parliament', no democratic government or politician anywhere in the world, no national or international organization, in fact *no one*, can knowingly support a political construct in the 21st century that originates from the Nazi drawing boards.

The undemocratic 'Brussels EU' will be replaced by a democratic system like in the US and other democracies, where the people have the right to choose – and to dismiss – their political executive.

The breakdown of the 'Brussels EU' is not just the result of a financial crisis – but due primarily to the evaporation of its political credibility!
